## From The Organising Chairman's Desk

*Hello Friends,*

*Members of Pushpanjali Medical Centre family. The curtain is finally drawn for Pushpanjali Medicon 2023. The Journey of organising the conference had been arduous but a pleasant one with plenty of fond memories to cherish in future. It has been a team work started well in time under the guidance of our visionary, valant and victorious Dr. Vinay Aggarwal, who always leads from front, thinking high and motivating everyone to work hard with dedication to achieve even the impossible. Both the programme (Puspanjali Medicon 2023 on 16th July and the celebrations of the successful mega show on 23rd July) had been meticulously planned and executed with precision to perfection.*

*Pushpanjlians have won many hearts, made new friends and received accolades for a wonderful scientific content, well attended and stupendously successful conference. The TRP of Pushpanjali Medicon 2023 had been the Three Orations and fourteen hours of interactive sessions covering all the specialties thus involving large number of delegates.*

*I express my gratitude and thanks to each one of you who have been associated directly or indirectly in organising the conference.*

*Long live Unity of PMC family.*

*Dr. Bipin Kumar Gupta  
Organising Chairman*

## Co-Chairpersons Message

*Hello Friends,*

*Once again Team Pushyanjali worked wonders for such a wonderful show as Pushyanjali Medicon 2023. B K we all know has been a great organiser, fund raiser and has the knack of taking our younger colleagues along...and his team for the conference has been wonderful. We all witnessed a mega event, comments of one and all are for everyone to see and cherish but Manish, Karun, Sumer, Nishesh, Manisha, Ankit and almost everyone contributed his bit. The scientific content and its delivery by the renowned experts in the respective fields has been par excellent. Dr J K Jain and Dr Shekhar Shrivastav Orations delivered by Dr O P Yadava and Dr Rajesh Malhotra respectively were very thought provoking and amazing. Glimpses into the management of healthcare aspects were very revealing as explained by Dr Gaurav Aggarwal in his First Dr M M Aggarwal Memorial Lecture. It was very heartening to see the Faculty presentations on various topics were well prepared and equally well presented with the active audience participation. Such a success of a scientific event of this magnitude not only brings a sense of satisfaction to the organisers but also encourages them to be more enthusiastic for planning such activities in future. I'm sure with the leadership as provided by our Iconic Dr Vinay Aggarwal we will witness such activities and events in future too on a regular basis.*
